# SITUATION SUMMARY

## Hurricane Norbert: Southern California

Update as of 1300 hours, 09/06/14

**Event Summary:** The forecast remains on track for Hurricane Norbert to weaken off the Baja coast on Monday. Deep tropical moisture being drawn northward around the storm will begin to impact the region later tonight and continue through Monday. The main threat will be for flash flooding from slow moving thunderstorms. A limiting factor may be the added cloud cover because the main trigger for this activity will be daytime heating. The greatest threat continues over the mountains and deserts each afternoon/evening.

**Timing:** Sunday and Monday...possibly lasting into Tuesday for the deserts of San Diego County

**Location:** Coachella Valley, High Desert, Inland Empire, Inner Coastal Waters, Orange County Coast, Riverside County Mountains, San Bernardino County Mountains, San Diego County Coast, San Diego County Deserts, San Diego County Mountains, San Diego County Valleys, Santa Ana Mountains and Foothills

**Storms/System Intensity:** Moderate to strong (possible areas of impact)

**Impacts:** Flash Flooding

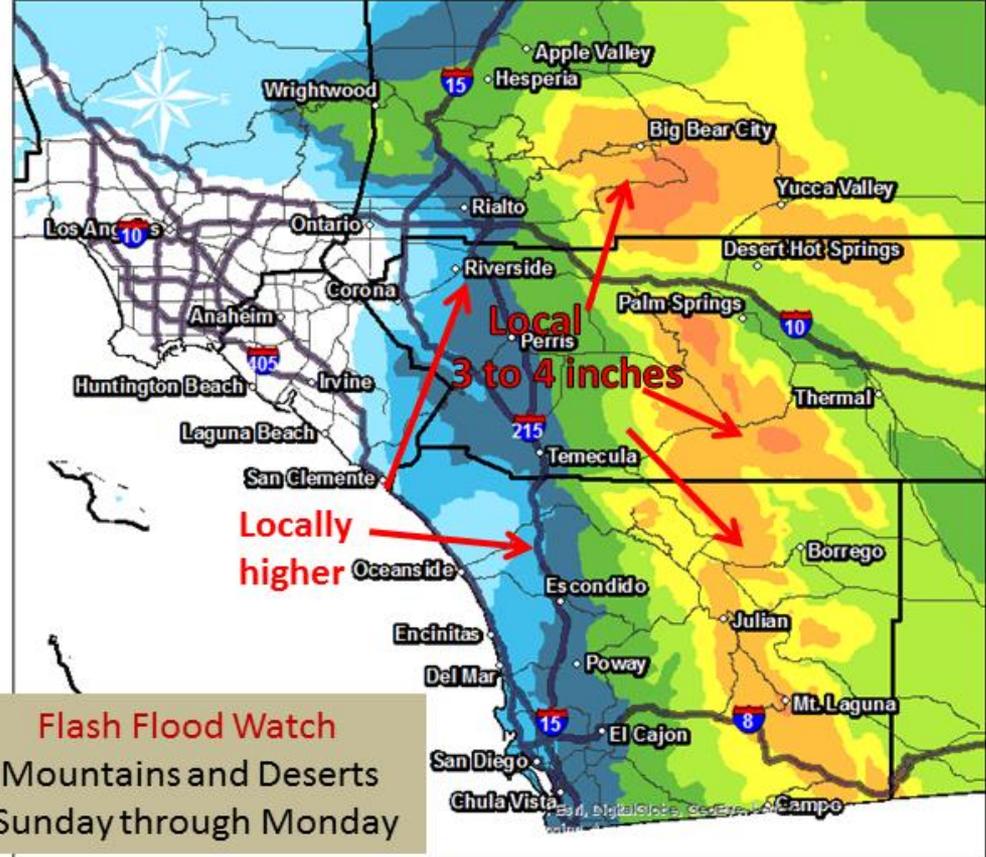

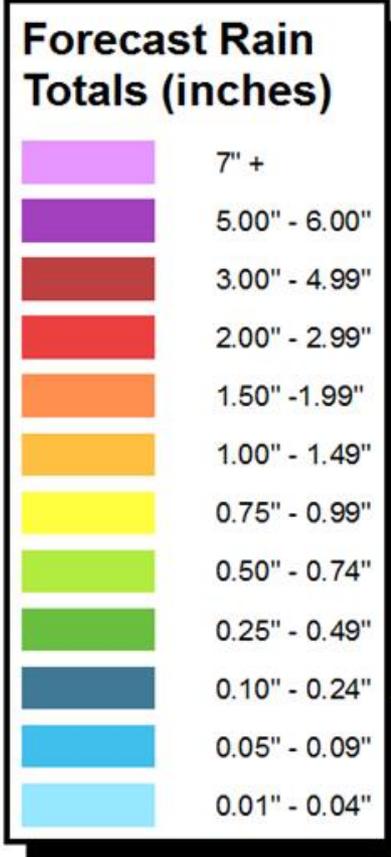

**Remarks:** The limiting factor will be the extent and thickness of the higher clouds. If the cloud deck is too thick, heating would be reduced and the threat of intense thunderstorms lowers. However, even a modest amount of sunshine should result in thunderstorm development. Some overnight and morning showers and thunderstorms are possible as well with dangerous cloud-to-ground lightning strikes.

### **Cal OES Southern Region**

Southern Region polled the designated Operational Areas (OA) and the consensus is that the OAs will be monitoring the event and believe they will have minimal to no impact. The Southern Region Emergency Operations Center (REOC) is ready to respond if the situation warrants it. The SDO will monitor the situation and maintain communications with the OAs that could potentially be impacted by Norbert.

**Situation Summary:** Coachella Valley, High Desert, Inland Empire, Inner Coastal Waters, Orange County Coast, Riverside County Mountains, San Bernardino County Mountains, San Diego County Coast, San Diego County Deserts, San Diego County Mountains, San Diego County Valleys, Santa Ana Mountains and Foothills

## **Governor Brown Requests Presidential Major Disaster Declaration, Offers Additional South Napa Earthquake Recovery Assistance**

Moving to help communities recover from the South Napa Earthquake, Governor Edmund G. Brown Jr. today requested a Presidential Major Disaster Declaration for the state and issued an Executive Order to help cut red tape and provide additional financial assistance.

A Presidential Major Disaster Declaration triggers the release of Federal funds to help communities recover and the Executive Order provides additional financial assistance to local agencies and non-profit organizations and ensures residents can replace important documents and access key services without shouldering additional costs or other burdens.

## **Magnitude 6.0 Earthquake, American Canyon, Napa County**

### **SITUATION:**

On Sunday, August 24, 2014, at 0320 Hours PST, a magnitude 6.0 earthquake struck five miles northwest of American Canyon, CA. The earthquake nucleated at a depth of 10.8km. The shaking intensity in American Canyon and Napa from the “South Napa Earthquake” was a “VII” on the Modified Mercalli Scale, suggesting very strong shaking occurred in the Napa County area. Ground shaking was felt as far south as Salinas, east to Sacramento, and north to Ukiah. The Cal OES Earthquake and Tsunami Duty Officer is in contact with the United States Geological Survey and California Geological Survey and will provide updates.

### **South Napa Earthquake Recovery VIP Tour**

- A tour of South Napa was held 9/3/14, and was hosted by the City and County of Napa.

### **Access and Functional Needs**

- Solano County established a casework hotline at (707-438-7059) from 1000 – 1700 hours.
- Napa County established a casework hotline at (707-257-2900) from 1000 – 1700 hours.

### **Damages**

CA State Parks Office of Historic Preservation reports inspections are this week for the Sonoma State Historic Park sites: Vallejo Home, Jack London, Petaluma Adobe and Benicia Capitol.

### **County of Napa**

#### • **Historic Buildings Damaged:**

- Uptown Theater (red tagged), Napa Valley Opera House (yellow tagged), Sam Kee Laundry, Goodman Library, Napa County Courthouse, and Napa State Hospital.

### **City of Napa**

- 129 red tagged structures; >1,000 yellow tagged structures

### **Sonoma County**

- 44 residences with minor damages; 7 businesses with minor damages

### **Solano County**

- Two (2) buildings sustained minor damage in Fairfield. There is no damage reported in unincorporated areas.

### **City of Vallejo**

- 30 red tagged structures; 409 yellow tagged structures

### **City of American Canyon**

- 0 red tagged structures; 48 yellow tagged structures (44 homes and 4 businesses)

### **Napa Airport**

- The earthquake blew out most of the windows in the Napa air traffic control tower and the facility is unusable. It could take several weeks to get new windows manufactured and installed.
- No obvious damage to the structure.
- A temporary tower was installed until the permanent tower is repaired. The controllers will use temporary towers (small cabs on the top of trailers) until fully restored in a couple of months.

### **Mobile Home Parks**

Housing and Community Development (HCD) and Cal OES Safety Assessment Program (SAP) inspectors continue to inspect mobile home parks.

- Vallejo reports 3 additional mobile homes with damage (9/2/14).

### **Evacuations/Shelters**

- American Red Cross shelter: Crosswalk Community Church, located at 2590 First Street, Napa, CA: Population: 23
- Pets can be sheltered at the Napa County Animal Shelter on Hartle Court, Napa, CA.
- American Red Cross shelter: Florence Douglas Senior Center, located at 333 Amador Street, Vallejo, CA: Population: 0; closed 09/06/14.

### **Health and Medical**

- St. Helena Hospital turbidity of sources was investigated and found to be minimal. The main turbidity problems are associated with their storage tanks. Contacts have been provided to the water system for tank cleaners. Additional bacteriological samples were collected by staff. There are no notices in place at this time; however, the situation continues to be monitored.
- The Office of Statewide Health Planning and Development (OSHPD) completed inspection of buildings at Napa State Hospital and the Sonoma Developmental Center.
- Per the Department of Social Services, the following CCL Adult and Senior Care Facilities are impacted:
  - Nazareth Rose Garden of Napa, 903 Saratoga Drive, Napa. Closed due to water damage, 38 residents moved.
  - Napa Valley Support Services - Brown Street, 2225 Brown Street, Ste. 102, Napa. The facility closed with ceiling damage.
  - Napa Valley Support Services – Napa, 622 Imperial Way, Napa. The facility closed with ceiling damage.

### **The following hospitals/clinics are closed:**

- Community Health Clinic (aka: Clinic Ole), 1100 Trancas Street, Napa: Will be closed for two to four weeks due to water damage. All patients with existing appointments have been given appointments at affiliate clinics.

### **Health and Medical Cont.**

- CDPH Women, Infants and Children (WIC) reported (1) center in Solano is closed and will reopen on 9/8/14. As of September 4, 2014, all four affected WIC site in Napa County have returned to normal operating status.
- Department of State Hospitals: Staff relocations to safe structures continue. Structural engineers continue to evaluate identified yellow and red tag structures. Aside from diligent monitoring, hospital life/safety/health issues and patient treatment areas are back to standard operations.
- The Department of Child Support Services: Napa County Child Support Agency is again providing services to child support customers.
- Napa County Public Health (NCPH) will be submitting a formal request to the Napa MHOAC regarding a request for assistance from the DEODC Emergency Preparedness Team. NCPH is requesting a community assessment of emergency preparedness, mental health issues, chronic disease exacerbation, and injuries following the earthquake. The assessment is planned for the week of 9/15/14.
- The CDPH and EMSA Duty Officer programs continue to monitor and update the impact of the incident.
- CDPH Division of Licensing and Certification (L&C) continues to monitor the situation and provide updates on the status of affected licensed facilities.
- CDPH Division of Environmental and Occupational Disease Control (DEODC) Emergency Preparedness (EP) will be assisting Napa County Public Health with an assessment planned for the week of 9/15/14 regarding epidemiological assessment of injuries, chronic disease exacerbation, mental health needs, and personal preparedness related to the earthquake.
- The CDPH Center for Health Statistics and Informatics (CHSI), Vital Records Registration Branch (VRRB) has been in contact with the Napa County Recorder's office and has not received requests for assistance but is monitoring the situation.

### **Power and Utilities**

Per CUEA:

- All communications functioning in normal range, AT&T has a COLT (cell on light truck) and mobile charging trailer on site in downtown Napa.
- PG&E strike teams deployed to provide welfare checks to the community for isolated power outages for Napa and damaged areas.

### **Water (as of 09/05/14)**

- As of September 4, 2014, all water main leaks associated with the event have been repaired. They have resumed their typical main leak response levels (2-inch laterals). (Note: the distribution losses are back to normal ~ 8%.)
- Napa Sanitation District (Napa County is responsible for the City of Napa service area) – SWRCB has requested an update to get a picture of the progress and mapping of the sewer main breaks.
- St. Helena Hospital – Tank cleaning completed, 09/05/14. To date, all water quality samples indicate no total coliform or E. coli activity. Initial storage tank turbidity measured 37 NTU on the day of the earthquake and dropped to 25 NTU last Friday during our inspection six days later. Staff were able to work with the operators and conclude that the storage tank was the origin of the turbidity problem. Following the tank cleaning, turbidity has come down to 9.9 NTU. Note:  $\frac{3}{4}$  of the suspended particles were 10 um or less in size on August 29, 2014. The facilities manager plans to send us a copy of the public notice planned for distribution.
- Meyers Water Company (community, 97 connections) (and neighbor Milton Road & Water Company, community with 24 connections) – They are eligible for emergency funding to install 28,000 gallons of storage and a generator. The Company has reached out to its neighbor (recent WQ impacts to their source were detected that related to the earthquake) to consider long-term options. The two companies are engaged in discussing a possible consolidation, which would ultimately lead to increased source and storage reliability for both water systems. SWRCB is supporting any effort to consider these long-term options (likely CA SRF funds) while being clear on the short-term (P84 Emergency Funding) options.
- City of Napa (Browns Valley Pressure Zone, 1,800 connections) – The City has worked with customers to minimize peak demands and has a contingency plan (labor intensive) to get through the weekend if the pump fails. To address these immediate needs, SWRCB is working on an emergency grant to provide the following: (1) 2 x variable frequency drive pumps, (2) emergency generator, and (3) a temporary cover on a structurally compromised tank. There are pressure recorders at two locations in the distribution system to monitor Browns Valley – these may be utilized in the near future to monitor any repairs made in the vicinity of sewer main breaks. To date, 140 bacteriological samples were collected following the event and no E. coli was detected in the distribution system.

At 1529 hours, today, 09/06/14, NWS Los Angeles/Oxnard Weather Forecast Office, issued an Excessive Heat Warning for the San Fernando and San Gabriel Valleys in Los Angeles County. The Excessive Heat Warning is in effect until 2000 hours tonight.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

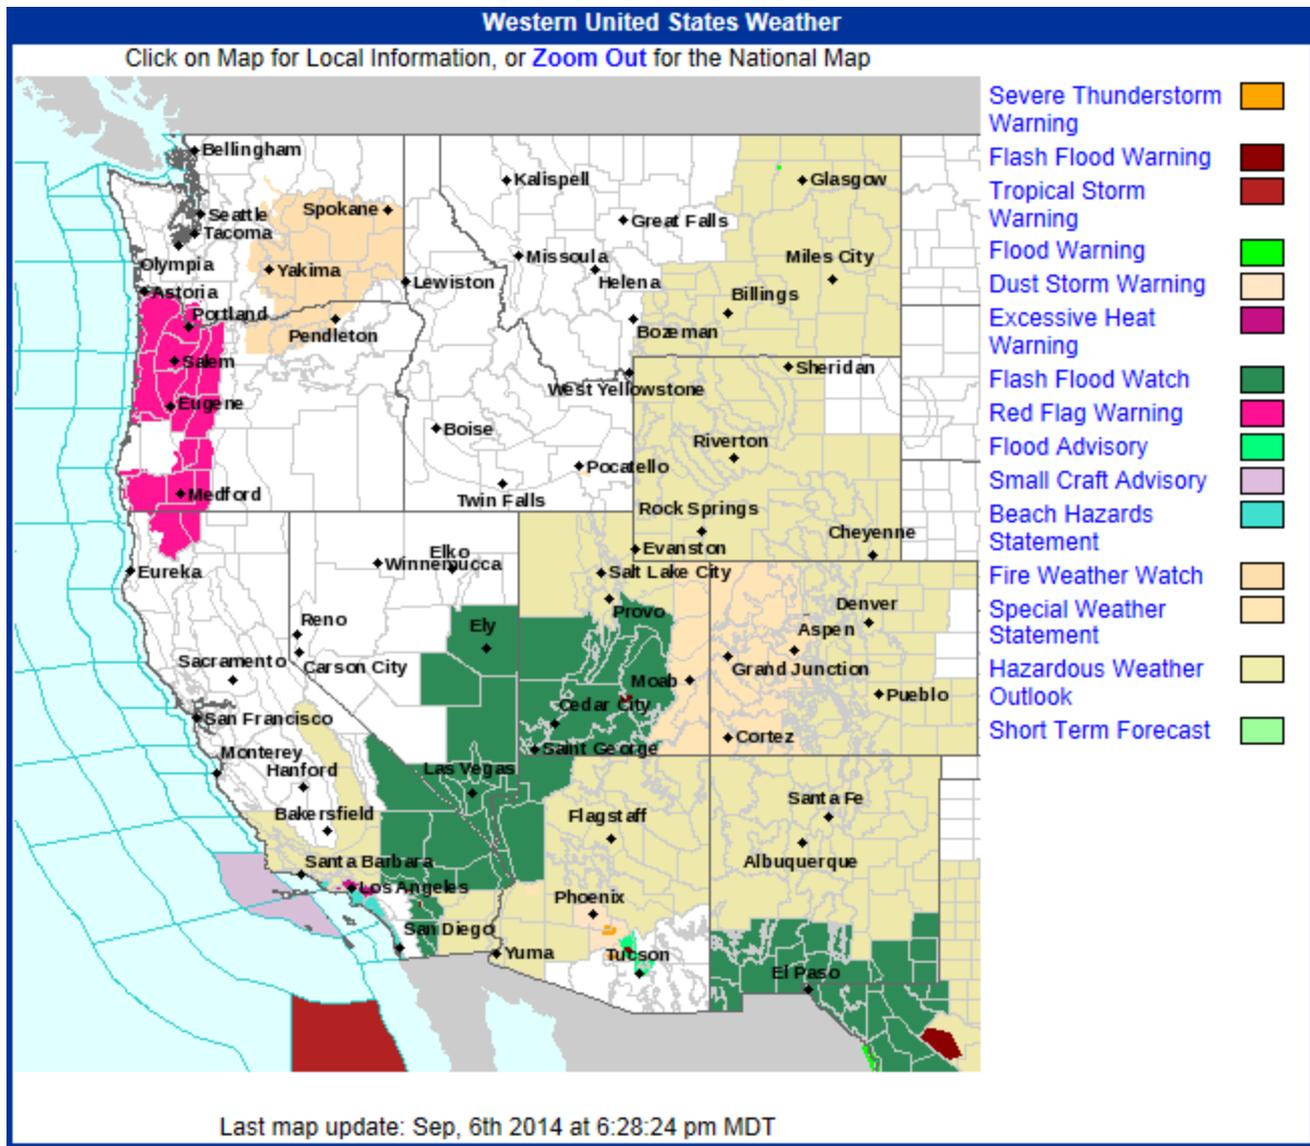

### **NORTHERN CALIFORNIA**

A weak and dry trough of low pressure will remain over Northern California through the weekend. Lingering offshore east winds across the Northwest Mountains will begin to diminish today as the large scale wind flow becomes more south to west this afternoon into Sunday. Temperatures may cool slightly (1-3 degrees) in most areas, but remaining very cool and moist along as onshore flow has deepened the marine layer to over 2000 feet bringing in widespread low clouds and fog. Moisture from Hurricane "Norbert" is expected to move northwards late this weekend and bring wetting rains to the Southern and Central Sierra by Monday. However, this moisture should remain generally south of our area. Early next week will become warmer and drier once again as East Pacific High Pressure builds in with widespread Northeast and Offshore winds. Wind speeds are expected to only be light to locally moderate, but we will return to very dry humidity levels, both day and also at night across many mid and upper slopes. Offshore winds diminish Thursday – Friday; however, conditions will remain very warm and dry.

### **SOUTHERN CALIFORNIA**

A ridge of high pressure will remain over the region today causing there to be little change in temperature, with 80s in the mountains and 90s in the valleys. Minimum humidity will remain in the single digits and teens across Central California away from the coast today, but humidity will increase across Southern California as moisture from Hurricane Norbert off the Baja Coast moves northward. This moisture will bring isolated showers and thunderstorms to the mountains and deserts of Southern California east of the Cajon Pass this afternoon. The moisture will continue to move north and west bringing widespread showers and thunderstorms to much of the Sierra and Southern California Sunday and Monday. Showers and thunderstorms will continue across the eastern deserts Tuesday and then end across the entire region Wednesday. A trough dropping down the West Coast as well as expected cloud cover will bring a significant cooling trend to the region Sunday through Tuesday. Another ridge of high pressure will build into California from the Pacific Ocean bringing a warming and drying trend to the region Wednesday through the end of next week. There will be strong downdraft winds associated with any thunderstorm activity, otherwise winds will be light through the end of next week.
